

2024-25 National Brotherhood of Skiers' Grand Prix Program

The Rocky Mountain Freestyle (RMF) NBS Mogul Grand Prix is a financial aid program operated through RMF to award scholarships to RMF athletes, to be used for education or qualified freestyle programs or competition expenses, based on their performance in the RMF competitive mogul series (COMP Series).

Rocky Mountain Freestyle is a competition committee of the Rocky Mountain Division of the United States Ski & Snowboard Association and sanctioned by the United States Ski & Snowboard Association. These competitions provide competitors with a ranking within the US, and provides opportunities for National and International level competitions, ultimately presenting athletes for consideration by the US Freestyle Ski team. US Freestyle Team athletes represent the US at the Freestyle World Cups and Olympic Winter Games. Typically, over half the athletes named to the US Freestyle Team began their careers in Rocky Mountain Freestyle.

Grand Prix Participant Requirements:

- 1) **Only Colorado residents**: A three-year proof of Colorado residency is required with proof of address.
- 2) Participants competing in all Rocky Mountain Freestyle events **must possess an active US Ski & Snowboard Competitor License**.

Mogul Grand Prix Sub-Committee:

- The RMF Competition Committee will form a Grand Prix Sub-Committee (GPSC) to oversee and administer the Grand Prix Program.
- The GPSC is responsible for administering the rules for participation, calculation and posting of standings.
- The GPSC will ensure that all participants have satisfied the Division's residency, licensing and competition requirements.
- The GPSC will be determined each year at the Fall Competition Committee meeting and approved at that meeting.
- At the Fall Competition Committee meeting, the program rules will be reviewed and amended by vote. Once approved, the program rules will stand for the upcoming season and will not be reviewed until the following year. There will be no changes to the program rules and requirements during the competition season. The GPSC has no authority to change the program rules. All proposed changes will be submitted to the RMF Competition Committee for debate and ratification at the annual meeting.
- The GPSC will be comprised of the following members:
 - RMF Competition Chair or Vice Chair (Standing)
 - Member-at-Large (2)
 - Active Coaches (2)
 - Athlete Representative (1)
- The current RMF Competition Chair will hold a standing position on the Sub-Committee.
- One Member-At-Large will be appointed from the Competition Committee and the other Member-at-Large will be appointed by the Competition Committee after receiving written interest from current Freestyle community members.
- One of the Coaches positions will be held by a voting Program Director currently serving on the Competition Committee. The other position will be appointed by the competition committee after receiving written interest from currently active coaches.
- The Athlete Rep will be appointed by the competition committee from any current licensed Competitive Series athlete in good standing with the Division and US Ski & Snowboard.
- All members of the committee pledge to act and carry out their responsibility to the rules and program in an honest, responsible, and diligent manner. Since coaches, parents and fellow athletes have a conflict of interest in their relationship with the participants in the Grand Prix Program, any acts that raise a question about the integrity of a member of the committee will come before the Competition Committee for review. The Competition Committee reserves the

right to remove any member of the Sub-Committee.

- The GPSC, upon final calculation of standings, will present, in writing, to the Competition Committee, the GPSC’s recommendations for candidates for the Grand Prix Awards and the awarding of scholarships. Upon receipt, the Competition Committee will meet and vote to give final approval in the awarding of the Grand Prix scholarships.
